CD-ROM or DVD DUPLICATION/REPLICATION. Several firms claim patent rights, which may be applicable to CD-ROM or DVD replication. For example, see <http://www.licensing.philips.com>. U.S. Philips Corporation and Sony Corporation claim to hold patents for certain technologies essential to the manufacture and replication of CD-ROMs and DVDs and assert it is impossible to manufacture or replicate a CD-ROM or DVD without infringing these patents. The patent claims cover, among other things, both the physical structure of and manner in which data is encoded on a CD-ROM or DVD. Other firms, including Discovision Associates, Irvine, CA, also claim similar patent rights.

Each bidder's attention is invited to the patent indemnification provisions of GPO Contract Terms (Pub. 310.2 (Rev. 6-01)) since the successful bidder will be responsible for compliance with all applicable patents, including any for CD-ROMs or DVDs.
